

FOR INFORMATION AND ACTION  
DA-2025-52  
December 8, 2025

Subject: APHIS Establishes a Box Tree Moth (*Cydalima perspectalis*) Quarantine in West Virginia

To: State, Tribal, and Territory Agricultural Regulatory Officials

Effective immediately, the Animal and Plant Health Inspection Service (APHIS), in cooperation with the West Virginia Department of Agriculture (WVDA), is adding the entire State of West Virginia to the box tree moth (*Cydalima perspectalis*; BTM) quarantined areas.

APHIS is taking this action in response to confirmed BTM detections in Berkeley County on June 4, and in Morgan County on July 3. This Federal Order supersedes Federal Order [DA-2025-29](#).

To prevent the spread of BTM, APHIS considers it necessary to regulate the interstate movement of regulated articles of boxwood from quarantined areas.

Establishments may only move boxwood plants interstate from quarantined areas if the establishment is operating under a compliance agreement, and only if the shipment is accompanied by a state-issued certificate certifying that the establishment has met the requirements of this Federal Order and their compliance agreement. These requirements facilitate the safe interstate movement of boxwood plants by producers and distributors. State agricultural authorities may prescribe additional safeguards and protocols.

APHIS prohibits movement of all other regulated articles of boxwood, including plant parts, pieces, cuttings, clippings, debris, and any portion of the plant, alive or dead, except for decorative purposes.

The [APHIS BTM webpage](#) has the attached Federal Order and additional information on this pest. For additional information you may contact:

*Acting* Deputy Administrator  
Plant Protection and Quarantine

Attachment: Federal Order

United States Department of Agriculture  
Animal and Plant Health Inspection Service  
Plant Protection and Quarantine

**Federal Order**

**APHIS Establishes a Box Tree Moth (*Cydalima perspectalis*) Quarantine in West Virginia**

**DA-2025-52**  
**December 8, 2025**

Effective immediately, the Animal and Plant Health Inspection Service (APHIS), in cooperation with the West Virginia Department of Agriculture (WVDA), is adding the entire State of West Virginia to the box tree moth (*Cydalima perspectalis*; BTM) quarantined areas.

APHIS is taking this action in response to confirmed BTM detections in Berkeley County on June 4, and in Morgan County on July 3. This Federal Order supersedes Federal Order [DA-2025-29](#).

This Federal Order is issued in accordance with the regulatory authority provided by the Plant Protection Act of June 20, 2000, as amended, [7 U.S.C. 7701 through 7786](#). Section 412(a) of the Plant Protection Act ([7 U.S.C. 7712\(a\)](#)) authorizes the Secretary of Agriculture, among other things, to prohibit or restrict the movement in interstate commerce of any plant, plant product, article, or means of conveyance, if the Secretary determines the prohibition or restriction is necessary to prevent the dissemination of a plant pest within the United States. The regulatory authority provided by [7 U.S.C. 7754](#) allows the Secretary to issue orders to carry out this provision of the Plant Protection Act.

To prevent the spread of BTM, APHIS considers it necessary to regulate the interstate movement of regulated articles of boxwood from quarantined areas.

Establishments may only move boxwood plants interstate from quarantined areas if the establishment is operating under a compliance agreement, and only if the shipment is accompanied by a state-issued certificate certifying that the establishment has met the requirements of this Federal Order and their compliance agreement. These requirements facilitate the safe interstate movement of boxwood plants by producers and distributors. State agricultural authorities may prescribe additional safeguards and protocols.

APHIS prohibits the movement of all other regulated articles of boxwood, including plant parts, pieces, cuttings, clippings, debris, and any portion of the plant, alive or dead, except for decorative purposes.

The [APHIS BTM webpage](#) has the attached Federal Order and additional information on this pest.

#### **A. Quarantined Areas**

The Administrator may designate a whole state or an area less than an entire state if the Administrator determines, as in this case, that the designation of less than an entire state is adequate to prevent the interstate spread of BTM. In addition, the Administrator may quarantine less than an entire state if it is determined that the affected state enforces equivalent restrictions and regulations for intrastate movement that effectively mitigate the spread of the pest.

APHIS designates the following as quarantined areas for BTM:

**Delaware:** The entire State.

**Massachusetts:** The entire State.

**Michigan:** All of Clinton, Eaton, Ingham, Jackson, Lapeer, Lenawee, Livingston, Macomb, Monroe, Oakland, St. Clair, Washtenaw, and Wayne Counties.

**New York:** All of Allegany, Broome, Cattaraugus, Cayuga, Chautauqua, Chemung, Chenango, Clinton, Cortland, Erie, Franklin, Genesee, Herkimer, Jefferson, Lewis, Livingston, Madison, Monroe, Niagara, Oneida, Onondaga, Ontario, Orleans, Oswego, Otsego, Tioga, Tompkins, Saint Lawrence, Schuyler, Seneca, Steuben, Wayne, Wyoming, and Yates Counties.

**Ohio:** All of Butler, Clermont, Greene, Hamilton, Miami, Montgomery, and Warren Counties.

**Pennsylvania:** All of Erie County.

**West Virginia:** The entire State.

#### **B. Regulated Articles**

Regulated articles include the whole plant, all plant parts, pieces, cuttings, clippings, debris, and any portion of the plant, alive or dead, except for decorative purposes.

#### **C. Conditions for Movement of Regulated Articles**

No person may move regulated articles interstate from any quarantined areas except in accordance with this Federal Order.

Establishments may only move boxwood plants interstate from quarantined areas if the establishment is operating under a compliance agreement, and only if the shipment is accompanied by a state-issued certificate certifying that the establishment has met the requirements of this Federal Order and their compliance agreement.

APHIS prohibits the movement of all other regulated articles of boxwood, including plant parts, pieces, cuttings, clippings, debris, and any portion of the plant, alive or dead, except for decorative purposes.

#### **D. Definitions**

*Administrator.* The Administrator of APHIS, or any person authorized to act for the Administrator.

*Certificate.* A document, stamp, or other means of identification issued by an inspector or person operating under a compliance agreement when he or she finds that, because of certain conditions, that allows a regulated article to move safely from an area quarantined for BTM, without spreading the pest.

*Compliance Agreement.* A written agreement between the state agriculture authority and a person engaged in the business of growing, maintaining, processing, handling, packing, or moving regulated articles for interstate movement, in which the person agrees to comply with specific requirements.

*Inspector.* An individual authorized to determine the eligibility of plants for interstate movement.

*Interstate.* From any state into or through any other state.

*Quarantined Area.* Any state, or any portion of a state, listed in this Federal Order.

*Regulated Article.* *Buxus* spp., commonly called boxwood. The whole plant, all plant parts, pieces, cuttings, clippings, debris, and any portion of the plant, alive or dead, except for decorative purposes.

*State Agriculture Authority.* A state agency that regulates agriculture, natural resources, and related issues.
